Our free Wordscapes word finder is at your service. What Is Wordscapes? You could say Wordscapes is nothing so much as a crossword puzzle without the clues. Wordscapes, published by PeopleFun, is more than that, though! A big difference is that you can't just throw any old letters in any old order on the board. Instead, Wordscapes presents players with a wheel of letters and a crossword-like interconnected set of blanks. Fill in the blanks with the letters. It's as simple as that! Well, no. If it really was as simple as that, it wouldn't be any fun. And it wouldn't be much of a challenge. Instead, Wordscapes requires tough lateral thinking and an ever-growing vocabulary. Like a crossword puzzle, Wordscapes requires you to provide specific words to fit specific blanks on the board. Unlike a crossword puzzle, there are no hints to guide you. So, there is a definite sense of trial and error here as you try to find any and all words that may fit into those spaces for each Wordscapes level. How to Play Wordscapes Naturally, the first thing you'll need to do to play Wordscapes is to get the game itself. The main Wordscapes game and Wordscapes in Bloom (which is the same game with different background images) are both available for Google Android and Apple iOS devices. Find them in the Google Play Store and Apple App Store, respectively. Many people play Wordscapes daily on their mobile devices. But, did you know you can play Wordscapes on your computer too? You can download Wordscapes on your PC or play Wordscapes online with no download, if you prefer. To play Wordscapes: 1. Launch the Wordscapes app. 2. Tap on the level number in the middle of your screen. 3. You'll see the crossword puzzle-like board in the top half and your wheel of available letters in the bottom half. 4. Swipe between the letters to connect them and form words. These words must be at least three letters long or, in some levels, at least four letters long. 5. If the word is in the puzzle, it'll appear in its place. 6. Valid words that aren't in the puzzle count as Wordscapes bonus words. These earn you bonus coins. Use coins to buy additional power-ups. 7. Surrounding the wheel are the icons for Shuffle, Bullseye, Lightbulb, Rocket Pop and Spelling Bee. Shuffle rearranges the letters. The first of the Wordscapes power-ups is the Bullseye; it reveals any one square in the puzzle. The Lightbulb reveals a whole word. The Rocket Pop reveals multiple letters at random. And the Spelling Bee reveals letters and drops coins. 8. The level is complete when you find all the Wordscapes puzzle answers and completely fill the board. 9. There is no time limit, nor are there any penalties for trying to play incorrect words. So, let's say for example that you're on Wordscapes level 124. That's in the Arch pack as part of the Canyon group of Wordscapes levels. For level 124, you have the letters EGMORU. Among the 16 required Wordscapes puzzle answers for this level are EURO, GERM, OGRE and MORGUE. The word MORGUE includes the O from EURO, and it also intersects with GERM, sharing the letter G. Bonus words include ERG, ERGO and GOER. Our convenient Wordscapes answer pages not only list all the words you need to play (plus bonus words), but they also display the words on the level's board layout too. That way, you know exactly which word belongs where. Whether you're stuck on Wordscapes level 85 or need help with Wordscapes level 230, we've got the full solution for you. Wordscapes Tips and Tricks Need some Wordscapes help to pass a tricky level? There's always our handy-dandy search tool above where you can find the full Wordscapes answers to any level in any pack or group. That's probably why you're here. But, before you jump straight to the complete Wordscapes cheat list, you might want to give it a go on your own. Here are some big Wordscapes tips for pwning even the most pernicious puzzles in the popular word game. Go Big, Go Home! Play for the longest word first. Like a crossword puzzle, often the longer a word is, the more letters it pops into the other words. With a little luck, you can work out an entire puzzle in one big play. Leverage that interconnectedness in your favor. Iterate, Conjugate, Dominate! If a singular word doesn't work, try plural. If a plural word doesn't work, try singular. Even when the singular word works, always try the plural if you've got an S. Likewise with the other way around. CUP could be CUPS, just as HATS could be HAT. And if a verb doesn't work, see if you can swipe in an -ed, an -ing, or an -s. BEND may also yield BENDED, BENDING or BENDS. Go Nuts With Every Combo! Well, not completely nuts. Don't paint on a bunch of wood and sacrifice your phone to the God of Word Nerds. But, do try absolutely every possible combination you can think of. If you know you need a 3-letter word that starts with C, it's a good idea to try every consonant-vowel-consonant combo you can find. Then, try consonant-consonant-vowel combos too, like CRY. Anything that even looks remotely like a valid word (and even if it doesn't) is worth a try. Remember that every real word is worth a coin, even if it doesn't fit into the puzzle. Play all the Wordscapes answers for maximum coinage! Winning Wordscapes Tournaments Getting in the swing (or swipe!) of things and ready to tackle the next challenge? Here's a quick primer on what you need to know about Wordscapes tournaments and how they work. Star Tournaments are individual, pitting you against 99 other players from around the world. Team Tournaments are played in teams. Wordscapes tournaments typically run from Friday evening to Sunday evening every weekend. Tournament icons appear on the left side of the main screen when you can enter. In both cases, the objective is to rack up as many stars as you can. You earn stars for every word you play on a regular level, including bonus words, but not including the Wordscapes daily puzzle. When the tournament ends, players and teams with the most stars earn rewards, including coins and free words. You'll want to keep our page bookmarked for the weekly Wordscapes tournaments! Wordscapes Answers for Master Levels In the early levels of Wordscapes, you probably have no problem rearranging the letters in CTA to form the word CAT. Maybe it took you a little longer to find the word SPICY using the letters YCRPIS. When you get to the Wordscapes Master levels though, starting on level 6001, you'll definitely be in for a much bigger challenge! Luckily for you, we have the full Wordscapes cheats and answers for thousands of Wordscapes Master levels, including bonus words. Word Cookies - The Newest, Greatest, App. Introduction The Word Cookies app is another word game developed by Bitmango, similar to many others that have come before. You match letters in different combinations to make words and try to make sure that you get all of the possible combinations. Bonuses, fun activities, and other additions to the game keep it fresh, while adorable graphics make it more interesting. In this review we will look at the game, see how the play style varies from other games, and try to identify the good, the bad, and everything else between. The game is currently available for both Android and iOS with no word of plans to launch for other platforms. It is free to play, but does offer in-app purchases for anyone who wants to play more or try to get an edge. Playstyle The game is played by looking at the word cookies in a pan and figuring out the many different combinations that they can be moved into. For example, EERD could be REED, RED, or DEER. Each level will generally show you how many choices you need to find and will give you a time limit to find them. You progress through the game by earning baking points, which of course are earned faster if you are input words faster. You get new titles and surprises as you progress, making it addicting to play. The progress bar lets you know when you are close to leveling up and as you progress you will get more challenging, but also more fun, words to work with. The Good The game is very easy to play, but rounds don't take up very much time. Generally you will only need to put in a few minutes to progress, making it easier to play than many other games. It also allows you to pause and is pretty good about allowing you to resume the game on both Android and iOS. The game is also free to play and you don't actually have to buy anything to progress. When you have been playing for a week or a month, you aren't going to hit a point where you feel like you need to pay real money to keep playing. In a world of games that push you to buy more all the time, this feels like a welcome breath of fresh air. You can watch videos to get coins to keep playing, which makes it easy for you to save up for anything that you want. The daily limit isn't very high, but over the course of a week you are pretty much guaranteed to be able to get anything you want. This also encourages you to log in each and every day, which makes you get better at the game over time. The game works well if you minimize it and then re-open it, and there were no bugs that we could find. No amount of pausing, re-opening the game, or anything else seemed to cause problems. It is coded extremely well and anyone who avoids free games because they are worried that they won't perform well can rest easy with this game. Finally, the game flows well. By that I mean that you don't feel like certain rounds drag, you are spending too much time on any given level, or anything of that sort. It feels comfortable and enjoyable, which is really positive if you are trying to avoid feeling frustrated or tied down to a game. The Bad The company has censored language, so anything relating to adult activities, swearing, replacement words for swearing, and a number of other things will not be able to be used as words. This can be a bit frustrating if you get letters that seem like they are trying to spell out these words. However, if you know ahead of time that they won't appear, you can avoid thinking of them and make the game easier. The game can seem a bit short, with the largest words still feeling a bit small. This game isn't quite as challenging as other word games on the market. However, this makes it a bit more enjoyable and you will rarely find a round that really stumps you and makes you frustrated. It is also possible that new rounds will be added in the future, increasing the difficulty and the overall enjoyment of the game. Some of the words used can be a bit obscure, which can be a bit frustrating if you aren't used to them. However, you will see what you missed at the end of a round and it's a great way to learn new words. I recommend keeping a dictionary nearby to make sure that you understand all the words that you are using. The uncommon words aren't going to pop up very often, maybe every 10 to 20 rounds, so they aren't that much of a problem overall. Conclusion This is a great little phone game that combines addicting activities with short rounds and learning. If you don't have a large vocabulary when you start playing this game, it will grow and you will learn more each time you play. The game has a few small flaws that can be a bit frustrating, but most of the time they aren't enough to take away from the overall experience. The game isn't necessarily unique, but it is well coded, enjoyable, and something that you won't regret downloading.
