This tutorial will show you how to open the Start menu in Windows 11. The Start menu is comprised of three sections: Pinned, All apps, and Recommended. The Start menu contains shortcuts of all your apps, settings, and files. The Pinned section is at the top of the Start menu. This section consists of pins arranged in a grid. The items in this section are a subset of all the apps installed on the PC; not all installed apps are included in this section by default. The number of rows and items in this view are consistent across device panel sizes. While the initial view of this section displays 18 items, a user can use the pagination control to move through pages of additional pins. The items in this section are a combination of Microsoft-defined apps, dynamically delivered apps, and OEM-configured items. Users can add, move, or remove pins in the upper-right corner of the Start menu. All Apps is a comprehensive list, in alphabetical order, of all installed apps. Users can add or remove items in All apps. The Recommended section is the section below the "Pinned" section on the bottom of the Start menu that shows a list of their recently added apps and recently opened items. Users can click/tap on More to see a full list of their recently added apps and recently opened items. Starting with Windows 11 build 22631.4391 (23H2) and build 26100.2161 (24H2), All apps is now just All on the Start menu. This change began rolling out with Build 22635.4291. In Windows 11 build 22635.4291. In Windows 11 build 22635.4291. In Windows 11 build 22635.4291. and category view groups all your apps into categories, ordered by usage. This change is gradually rolling out so you may not see it right away. Microsoft plans to begin rolling this out to Windows Insiders who are receiving updates based on Windows Insiders who are receiving updates and the properties of the properties following actions: (see screenshot below) Click/tap on the Start button on the taskbar. Wikipedia 0.0 / 0 votes Start Start! is the eleventh UK single release by the band The Jam and their second number three, and two weeks later reached number one for one week. Written by Paul Weller and produced by Vic Coppersmith-Heaven and The Jam, "Start!" is based on both the main guitar riff and bass riff of the Beatles' 1966 song "Taxman" from the album Revolver, written by George Harrison. "Liza Radley" also utilises the "Taxman" bassline as does "Dreams of Children", B-side to "Going Underground", played then as a lead guitar riff. The album version of the song runs at 2:30 and features trumpets in the final section. ChatGPT0.0 / 0 votesstartStart, as a verb, refers to the action of commencing or initiating something.
