Galaxy A03. The Samsung Galaxy A03 is a smartphone featuring a 6.5-inch LCD display with a resolution of 720 x 1600 pixels. The display is equipped with touchscreen functionality, allowing for user interaction. It also utilizes Panda Glass technology, which provides enhanced protection against scratches and damage. With a contrast ratio of 1200:1
the Samsung Galaxy A03 ensures a vibrant and clear visual experience. The device has a bar form factor and is made of plastic, making it lightweight and easy to handle. It has an International Protection (IP) code of IP52, indicating a resistance to dust and water splashes. The smartphone offers face recognition technology, enabling users to securely
unlock their device with a simple glance. The display boasts a brightness level of 400 cd/m², ensuring good visibility in various lighting conditions. It has a maximum refresh rate of 60 Hz, providing smooth navigation and interactions. Overall, the Samsung Galaxy A03 presents a solid set of specifications. Its 6.5-inch display with LCD technology
delivers sharp visuals, while the use of Panda Glass enhances durability. The inclusion of face recognition enhances the device's security capabilities. With a brightness level of 400 cd/m², the screen remains visible even in bright environments. The device's plastic housing material keeps it lightweight, and its IP52 rating provides some protection
against dust and water splashes.
