It does work for mine altho barely. I dont know why there are requirements, but there definately shoulndnt be. It is so laggy that just walking is a struggle. The game itself is pretty good, but the fact that my device isnt good.This was actually my first rpg online game which I actually enjoyed. I managed to join a guild, grind up for levels, and even received support from my guild members.This game is wonderful. If you like mmorpgs or are curious about them, this one's for you. I would give five stars if the control system were improved. Auto travel takes your character in a straight line and gets stopped by obstacles. It can become tedious going back and forth trying to find people. It reminds me of my favorite game Aion the ambience of the adventure has the same feel. Pretty fun game, for myself it's pretty addictive.Great graphics, great story, combat system is good and no auto-attack like in most mobile Mmorpg's. Just started playing over a month ago, and I really like it.Thanks for playing and good luck on your adventure!You May Also Like: Garena Free Fire MAX Apk ModMore Information of This Games: Play StoreFree Download Updated Version RPG Toram Online 3.4.1 Apk Mod (God Mode/Attack Speed) Android Games From Our High Speed Direct Server Link Enjoy Your Game And Have A Nice Day Thank You.
