percentage of the total world population starting from July 1 of the indicated year. World Population: total world population starting from July 1 of the year indicated. Global rank: position held by India in the list of all countries around the world classified by population (from the highest population to the lowest population) starting from July 1 of the indicated year. Indicated. However, another 30,000 people reside in the city during the winter months. India is known as the "City of Festivals" - the festivals and special events within the city collectively attract over 1.4 million visitors annually. 2017 US Census Demographic Data. Average Age: 37.3. Persons Under 18 Years: 27.3. Household Size: 3.10. Hispanic: 67.9%. 16/01/2021 - India has the highest numbers of excess males population of 54.20 million. India is at 189th position out of 201 countries/territories in terms of female to male ratio. Among Asian countries, its position is 42nd out of 51 countries/territories. In India, the male to female ratio has increased from 104.40 in 1950 to a peak value of 108.47 in 2008. 21/12/2021 - India has capitalized on its large educated English-speaking population to become a major exporter of information technology services, business outsourcing services, and software workers. Nevertheless, per capita income remains below the world average. India is developing into an open-market economy, yet traces of its past autarkic policies remain. 09/12/2021 - The population of India is projected at 1,393,409,038 or 1.39 billion or 139 crore as of July 1, 2021. The total population in India is projected at 1,380,004,385 or 1.38 billion or 138 crore people for the year 2020. India is the second most populous country in the world behind China. 01/07/2021 - India Demographic data as of July 1, 2021, economic data for 2020 Print Share. Basic Facts. Population. People per sq. km. Males per 100 females. Children per woman. Goods exported from U.S. Goods imported to U.S. Change in exports from U.S. for 2011 to 2020. A Closer Look. Source. Comparisons. India is the second most populated country in the world with nearly a fifth of the world's population. According to the 2019 revision of the World Population Prospects[6][7] the population stood at 1,352,642,280. Demographics of India is an important topic for the UPSC Exam. Demographics refer to statistical data relating to the population in a region. This covers various factors like population growth rate, the percentage of different age groups within the population, the literacy rates, the sex ratio, urban-rural population ratios, etc. India's largest youth population is a powerful engine of economic growth and development. Indiatat.com covers the updated statistical data on various sectors of Demographics like Density, Disability, Fertility, Growth, Language, Literacy, Migration, Population, Religion. See Ratio, Slums and Workers. Population, total - India. (1) United Nations Population Division. World Population Prospects: 2019 Revision. (2) Census reports and other statistical publications from national statistical offices. (3) Eurostat: Demographic Statistics. (4) United Nations Statistical Division. 13/12/2021 - India's least populous territory, the southern archipelago of Lakshadweep, had about 65,000 people in 2011. That was on par with Greenland and Bermuda, and equaled roughly a tenth of Wyoming's residents at that time. Hindus were a majority in 28 of India's 35 states in 2011. Around 94% of the world's Hindus (966 million) lived in India ...
