There are a plethora of Pokémon GO players across the globe, to whom finding those rare species is an ultimate joy to smash more points. However, to make the game more interesting the producer poses many obstacles in the way, among which location barrier proves to be the biggest one. To solve the problem effectively, the most common and plausible trick is to use a Pokémon GO spoofer. While there are many Pokémon GO spoofing apps in the market, it's not that easy to find the right one. Fortunately, this article will take you through a detailed guide on the top 6 Pokémon GO spoofer tools. YES, you can. Although Pokémon GO has banned a number of players because of their spoofing location cheat, this isn't the end of Pokémon GO spoofing, whether on iOS or Android devices. It is truly difficult to spoof on Pokémon GO "bare-handed" indeed, but you can always make use of a Pokémon GO spoofer to hold the upper hand in this game. The beauty of such location spoofing tools is that they provide a platform for users to intelligently change the location. And as long as you perform this action carefully, it's absolutely possible to avoid getting suspected and flagged by Pokémon GO. Part 2. Top 6 Pokémon GO Spoofers in 2022. 1. Unicorn TailorGo Without much efforts, Unicorn TailorGo slots into the top 6 Pokémon GO spoofers in 2022. This is a professional tool specially designed to provide a comprehensive solution to the location changing issue on both iOS and Android devices. Equipped with plenty of distinctive features, Unicorn TailorGo makes Pokémon GO spoofing not only safe but full of fun. 1. Download, install and launch Unicorn TailorGo on your computer. Then connect your device to the computer. 2. For iOS devices, directly select one mode from the interface: Teleport Mode, Two-Spot Mode or Multi-Spot Mode. For Android users, enter the Gaming or Social Mode first. Then select a destination or plan a route. 3. Get your location changed or finish simulating GPS movement. 2. iSpoofery iSpoofery is one of the most popular platforms on Windows and Mac systems that supports GPS location change. This tool is compatible with several iPhone and iPad versions and is suitable for location-based apps like Pokémon GO as well as dating apps among others. Check the following steps to use iSpoofery: Step 1. Download iSpoofery from its official website as per your OS and install it on your device. Also, make sure the latest iTunes version is installed on your computer if you are using Windows or Mac. Step 2. Now connect your PC to your iPhone and click the "Trust" button to confirm authentication. Step 3. On the subsequent map, enter the desired location in the search field and press Enter. Once the location found, click the "Move Here" button that pops up on the center of this map. The iSpoofery will set this new location as your default location on your iPhone. You can now disconnect your iPhone and launch the Pokémon GO game. Ideally, the Tutu app is a popular third-party program that allows users to download premium games and apps without forking out any money. It was initially launched in the Chinese version but currently offers an English version as well. The developers of Tutu hacked GPS of Pokémon GO to get details of the working of joystick control so that users can move easily to catch rare Pokémon. Step 1. Download the Tutu app then launch it on your device. Step 2. Open the App drawer then search for "PokemonGo Hack". Then download it. Step 3. Follow the on-screen instructions to complete the installation. Then you can go anywhere in just seconds using the teleport option in this app. 4. Fake GPS GO Location Spoofer Free Fake GPS GO Location Spoofer Free is a good Android location spoofer tool worth a shot. It is a mobile application and the following steps illustrate how to use it. Step 1. Go to Google Play Store and install Fake GPS GO Location Spoofer on your device. Step 2. Navigate to Settings > Developer options and check the "Allow mock locations" checkbox. Step 3. Again, go back to "Developer options" and choose the "Mock location app" option. Accept the pop-up dialog box and choose "Fake GPS GO". Step 4. Now open Fake GPS GO app. Click on its search bar and enter the name of the place you want to teleport to. VPN can help change your location by shifting your traffic through a server located in a different place. And a proper VPN tool will let you select the desired server anywhere across the world. Here we'll take ExpressVPN as an example. Step 1. Download ExpressVPN server for your device. Step 2. Download a GPS spoofing app and set it properly. Step 3. Open ExpressVPN app and choose a secure VPN server location set the same as the one you've chosen in the location spoofing app. This change of server location will greatly lower the risks of being detected or banned by Pokémon GO. Step 4. Launch Pokémon GO and start playing the game. 6. PokeGo++ PokeGo++ is another plausible Pokémon GO spoofer tool leveraged by plenty of iOS users. Before downloading it, make sure iTunes is installed on your computer. Step 1. Uninstall the official Pokémon GO app if it's already on your device. Step 2. Sign up for a BuildStore account and register. Step 3. Install PokeGo++ from BuildStore and sign into your Pokémon GO account. Step 4. Click the Settings icon on the interface and enable Fake Location. Step 5. Now you'll be able to use the joystick to move to any place you want and access other GPS hacks. Performing Pokémon GO spoofing using Pokémon GO spoofers is actually an illegal way of playing Pokémon GO to some degree. Once getting caught by Pokémon GO official, you will be flagged with account suspended or even banned for lifetime. Therefore to avoid this, you can never be too careful while changing GPS location on Pokémon GO. 1. One of the most important practices is to make reasonable movements. You need to avoid changing locations at a rate which is too fast because it creates suspicion. 2. If you happen to change locations between two points, don't repeat it within a short time. If it is possible, you should first turn off Pokémon GO before switching between these locations. 3. Another good practice is to use a reliable location spoofer tool. Remember not all Pokémon GO spoofers are up to par.

Make sure to select tools and offer features that let you intelligently spoof in Pokémon GO.
