Settings Secure your Samsung account settings Losing your Galaxy devices, like a phone, tablet, watch, or earbuds, can be extremely stressful and upsetting. With services like Find My Mobile and more, you can locate your lost device or wearables effortlessly Backup & Restore How to set up and manage your Samsung account A Samsung account lets you use exclusive apps. Luckily, setting up an account is simple. Samsung Apps Adjust the SmartThings app's settings Fine-tuning notifications for certain devices or using your phone's location to trigger automations. Samsung Apps Available SmartThings hubs and their differences Samsung makes different types of smart hubs, such as the SmartThings Hub, Connect Home, and SmartThings WiFi. Check each hub type before deciding which to buy. Samsung Apps Check if your SmartThings Hub is up to date SmartThings will often push firmware updates to your connected Hubs to keep all its features running well. Fortunately, checking your Hub's firmware version is quick and easy when you use the SmartThings Samsung Apps Compatible devices for the SmartThings app or hubs If you're wondering which of your smart devices are compatible with SmartThings, you can use the app to check for them. Then, you can add devices to the app. Samsung Apps Connect and use multiple SmartThings hubs You can now add multiple SmartThings hubs to one location in the SmartThings app! You will also be able to select what hub you want to connect your new devices to. Samsung Apps Connect Bluetooth devices to your phone through SmartThings Bluetooth devices, such as headphones or TV speakers, can be connected to the SmartThings app on your phone through SmartThings. If so, make sure to sync your samsung account to themselves. For example, you can make your kitchen lights turn on when you get home. Samsung Apps Factory reset or reboot your SmartThings Wi-Fi Hub To redo your SmartThings setup or just reset your hub's Z-Wave and Zigbee system back to its default settings, you must reboot or factory reset the entire hub. Samsung Apps Find the version of your SmartThings Hub Your SmartThings Hub lets you connect devices, but it is helpful to know which hub you own. Luckily, you can easily identify which one you have. Samsung Apps Set up your SmartThings hub, SmartThings Wifi, or Connect Home To get the most out of the SmartThings app, you can connect a SmartThings brand hub! It will let you connect and control additional smart devices from the app. Samsung Apps Invite members using the SmartThings app To let your family or friends use and control your smart devices, you can invite them to be members of a Location in your SmartThings account. Samsung Apps Location inaccuracy with your SmartThings Tracker The SmartThings Tracker is extremely accurate, but there are a few things to take consideration when it coming to tracking a location. Samsung Apps Port forwarding on your Connect Home with SmartThings If you add a port to your Connect Home, you can remotely access many of your smart devices through the SmartThings app. For example, you can view your smart camera's footage from anywhere. Samsung Apps Reset the Welcome Code on your SmartThings Hub The SmartThings Hub v2 (2015) and the Hub v1 (2013) have their own Welcome Code that is required to activate them and may need to be reset if an error occurs. Samsung Apps Set up and manage a guest network on Connect Home with SmartThings When you have got people over and do not want them to have full access to your Wi-Fi network, you can create a guest network using your Connect Home hub. Your guests will have access to your internet but Samsung Apps Set up and use the SmartThings Cam so you can catch its footage with your phone. The SmartThings Cam can see alerts when motion is detected by the camera or sign up for cloud storage. Samsung Apps Set up the SmartThings app on your phone Interested in having a smart home? Download and set up the SmartThings app on your phone, so you can begin connecting and using your smart devices. Samsung Apps Update the SmartThings Wi-Fi hub and connected devices firmware You can keep your SmartThings Wi-Fi hub and its connected devices running smoothly by updating the hub's firmware using the Plume app, where you can rename your hub or create a guest network. Samsung Apps Update the SmartThings app to the latest version It is important to keep the SmartThings app up to date, so it can receive the latest features. The app updates by itself, but there is a way to manually update it. Samsung Apps Use the SmartThings Home screen With the Home Screen in SmartThings, monitoring and managing your devices is easier than ever. Once you open the SmartThings app, you will have everything you need right at your fingertips. You can view Samsung Apps Use the HomePass app with SmartThings Wi-Fi The Plume app can be used to check on your wireless network, manage guest access, and set up advanced settings, like port forwarding and using a custom DNS. You can view the bands and channels your Wi-Fi network traffic on Connect Home What is causing your internet speed to be so slow? You can get all the answers from your Connect Home, which allows you to view network traffic from the SmartThings app. Samsung Apps SmartThings Wi-Fi advanced network settings SmartThings Wi-Fi comes with advanced router settings that can be adjusted, like changing your network mode or setting up port forwarding for games. Samsung Apps SmartThings Wi-Fi manual IP address setup (PPPoE and static IP) If you tried to set up SmartThings Wi-Fi and could not connect to the internet, you will need to check your network setup and manually set your IP address. Samsung Apps Set up your SmartThings Wifi Smart Plug You can plug in your coffee pot, lamp, or other devices into a SmartThings WiFi Smart Plug so you will be able to control the outlet anytime you need to.
