Check for PC compatible PCs or alternatives or follow the following PC user guide: If you want to install and use the Mad App caps on your PC or Mac, you need to download and install a desktop app emulator for your computer. We have worked diligently to help you understand how to use this app for your computer in 4 simple steps below: OK. Starting from the beginning. If you want to use the application on your computer, before visiting the MAC or Windows AppStore store and search for both the BlueStacks app or the NOX App >>. Most web tutorials recommend the BlueStacks app and I might be tempted to recommend it because it is more likely that you can easily find online solutions if you have problems using the BlueStacks application on your computer. You can download the BlueStacks PC or Mac software here >>. application. Once you find, click to install the application or EXE on your PC or Mac computer. Now click Next to accept the license agreement. Follow the directives on the screen to properly install the application. If you do exactly, the Emulator app will be installed correctly. Step 3: For PC - Windows 7/8 / 8.1 / 10 now, open the Emulator application you installed and searches for your search bar. Once found, type Mad Caps in the search bar and press Search. Click on Mad CapsApplication icon. A Mad Caps window on the Play Store or App Store will open and the archive will be displayed in the emulator application. Now, press the Install button and like an iPhone or Android device, the application will start downloading. Now we are all facts. You will see an icon called "All apps". Click on it and will take you to a page containing all installed applications. You should see the icon. Click on it and start using the application. Step 4: For Mac OS Hi. Mac user! The procedure for using Mad Caps for Mac are exactly like those for the Windows operating system above. All you need to do is install the NOx or BlueStack application emulator on your Macintosh. I played this back when it was only for Windows. This is probably the only Windows game that I lost .... until now !!! This is very funny, addictive * highly *, and both an easy game to learn, but still very demanding !! Thanks mumbojumbo !!! It doesn't work with Yosemite by Chillywig (PCMAC user) Since the update to Yosemite, this game will only be working from time to time. I contacted the company of a couple of months ago and received an answer by saying that they would have tried, but no correction or update. Remember games like a child from MissyPaws (PCMAC user) It sorts to remind me of games we did as children using bottle caps. I like. It's simple and a new twist on the game 3 games. I really like the cherry bombs and rockets. The aliens and atoms are also very awake. It's very retro looking. Funny, engaging, never tiring, love it! One of those games that you will never stop playing. Genius in his simplicity. It is worth every penny. If only it would be for the iPad / iPhone ... iPad / iPhone ...
