When the chained object is lowered, lowered and climbs the wooden boards / ice wall in front of where The demolition ball destroyed through the cliff. Tall, turn the wheel and lower the hanging basket. Turn the wheel until you spin long, then run through the trees and jump to it A ♂ ~ ♀ . This time be quick. Jumping to the suspended object will destroy through another ice wall. Climb the ice wall to reach your reward at the top. Challenge Tomb #2 : Ancient Tank Location : A Soviet installation - found near the ravine outside the timber in the center of the area. Shoot the anchor that holds the trunk of the tree from the crane to bust down the chain holding the tank. Then shoot the second anchor point on the opposite side of the map. Once both anchors are shot, the tank will rise and float away. To get the reward, swim across the water towards the tower, beyond the water wheel and enters the interior room. Throws a gas container on the chained blue cap and shoot it to lift the water level. Go up the platform behind the tower and take another gas container. Jet floating raft. Move the raft hanging at the table, pulling it down. The raft will move towards the hydraulic wheel A♂ "down and snap the gas container while slowly returning to its original location. Swim in the tunnel where the second blue cap was. Climb up to the top and break downstream wall that brings back to the main room. Throw another gas container on the same raft as before. Pull the dash again to increase the water level, then swim to the raft. Collect the container and throw it through the top door. Use the gas container to reach the third blue cap. Now you can reach the reward on the central tower. Challenge Tomb #3: Voice of God Location: Soviet installation -- The entrance of the cave is located in the south-eastern corner of the installation. You will not be able to reach / complete this tomb until you have reached the end of the cave. From the entrance, look forward along the riverbank and follow the path leading to the mine cart. Climbing through the opening and burst through the weak wall -- now raise the front door again. Return through the broken wall and use a rope arrow on the hanging rock reward. Connect the rope to the pulley and turn the wheel. Pull it tight, then cut the rope -- upper levels so that the weighted container enters the path of the wind gust. If you turn it off, the first weight will break in a second weighing, freeing it from the ice. Go back to the central room and open the rear door with the wheel. Now you can achieve the reward of skill. Challenge Tomb #4: The Red Mine Location: Soviet Installation -- Found in the upper levels of the Copper Mill. You'll need Molotov Cocktails and rope arrows to get to the red mine shaft. Enter the mine by climbing over the fence. Follow the path leading to the mine cart. Climbing through the opening and burst through the weak wall -- now raise the front door again. Return through the broken wall and use a rope arrow on the hanging rock reward. Connect the rope to the pulley and turn the wheel. Pull it tight, then cut the rope -- upper levels so that the weighted container enters the path of the wind gust. If you turn it off, the first weight will break in a second weighing, freeing it from the ice. Go back to the central room and open the rear door with the wheel. Now you can achieve the reward of skill. Challenge Tomb #5: Town house Afflitta: Geothermal Valley -- Find this on the northern cliffs of the valley. Look for a high path Rope Arrow anchor pit. Enter the mine by climbing over the fence. Follow the path leading to the mine cart. Climbing through the opening and burst through the weak wall -- now raise the front door again. Return through the broken wall and use a rope arrow on the hanging rock reward. Connect the rope to the pulley and turn the wheel. Pull it tight, then cut the rope -- upper levels so that the weighted container enters the path of the wind gust. **ABILITY Reward:** A♂ , anatomical knowledge "Sense the position of animal hearts when you use survival instincts or aim at the prey. The shots in animal hearts inflict massive damage. Animals with thick skins (bears and big cats) are immune to cardiac shots. WALKTHROUGH: Start using a rope arrow to pull the raft towards Lara. The raft is blocked behind the central island where the strong currents do not move. By pulling it up the raft to the currents, then jump before floating away. There are A swivel rope near the island. Connect your raft to the swivel anchor. Now on the central island, pull a second raft from under the waterfall with a rope arrow. Jump onto connect the raft to a second point on the eastern wall. After connecting the two ropes, the raft will stop moving. Push the lever on the eastern wall to start the current. Using the current's force, pull the raft towards the western wall. Once the raft reaches the western wall, pull the lever on the western wall to stop the current. Now you need rope arrows and fire arrows to complete the tomb of the final challenge. ABILITY Reward: the Greek fire A ♂ ~ ♀ "The flames of fire arrows and Molotov cocktails make more damage and are quite hot to burn through the enemy armor. Technology: fall into the pit used and use the rope arrows to pull the two levers attached to the upper wall, above the cage hanging. The explosive gas will filter in the pit A ♂ ~ ♀ "exploding it with a fire arrow while standing near the water. Then insert the lower passage and break the lock on the skeleton cage. Now that's free, go back and turn the wheel to increase the cage. Use another rope arrow on the pulley mechanism to rotate the entire cage so that the suspended cage is aligned with (and closer to) the gate that blocks the mode for the code. Pull the double levers again with the rope arrows and set the explosive gas again to break down the cage through the gate. Achievement / Trophy Unlocked Tomb Raider completes all optional challenge tombs. Tombs.
