Turn on the heat by pressing the bellows with the left trigger. Then say that "I can help." She will have a side sequence for you, at her service, to me. She asks about the attack and then on the plague. If you want the trophy, it is vital that Henry has learned to read. She returns to Bedrishka, Vincent and Daniel and give them a little potion. While you walk on the drawbridge, turn right and, to the right of it, it will be an improvised nursery. To get the trophy of the plague doctor, now you have to wait a couple of days, then return to Merhojed and talk to Melichah. Give him that she believes that the disease is caused by "water position". In this search, you must interrogate an old woman from herbs in the forest, and then watch three women in the city while taking drugs and trying to communicate with the devil. Then, on the southeast side of the village, you will find the houses of Vincent and Old Straw, one by the other. Melichah is usually wandering in front of the stable door. In addition, you do not have much variety since it is also sick of the bandit. Go slowly, because it is possible to take advantage of the mixture. When finally the time comes to end the conversation, take it to your offer of drinking the valerian, Cardos and charcoal in the bank. With Pribyslavitz conquered and a new enemy lurking in the shadows, Kingdom Come Deliverance takes a new turn as Henry investigates a mysterious disease that takes over the village of Merhojed. Now you have to boil the concoction for ¢ Â Â Â two turns. Either way, head to an Alchemy station - there is one conveniently placed next to the infirmary, or behind the pharmacy in Rattay. He agrees, and him about his symptoms. Talk to Johanka and tell him about the plague. To start with, he talks to Mattias at the stable about the raid on Merhojed. If you manage to follow them at a distance until they start the ritual, and then they show you, they will mistake you for the Prince of Darkness, and they will offer themselves to you. Ask him about the situation and tell him that you have made a cure. Another meeting can be held during the Main Search, Mysterious Paths. Now that the sand has run out for the second time, add the valerian from the bottom right tray. Next, add water to the boiler. If you can read, take a look at the book on the lectern closest to the door. If you help her get back all the wedding presents without cutting corners, you can come back for a reward. Once there, talk to Nicodemus and tell him about the plague. Stop pushing as soon as you see the bubbles. To put him in a good mood, tell him everything about yourself, and ask him questions too. Administer the cure to the prisoner, then wait as the situation develops. You can do this by completing the mission more powerful than the sword, for which we also have a guide. In short, the recipe is: Add water to the cauldron Add two handfuls of thistle Boil the mixture for two turns of the hourglass by pressing the left trigger 4 to 5 times. Now you have to boil the potion one more. In Kingdom, see: Deliverance, Henry will have several several engage in dating, romance or hire the services of women of a certain profession. Reporting the Plague The first choice of dialogue doesn't matter, but then you have to say "about half of the houses", followed by "all animals." Finally, a few days later, play a game with her in the barn and you will complete the search and have a romantic night with Theresa. When she asks you to put it on yourself, accept the decision to change in front of her, and you will have a scene where you have a secret affair with the Lady of Talmberg. She will offer to give you a shirt that used to belong to her late husband. Warning: It is worth noting that participating in any of these activities will make you unable to win the Achievement: Celibacy, which requires Henry to complete the game as a virgin. Many towns and cities in Bohemia have an area known as the bathhouse. When talking to him, he refuses to let him speak to the bandit needed for the main Q & A mission and says that his fellow villagers are dying of an unknown plague. And when the first pile of sand is finished, pull the right trigger again to flip it. Here is our guide to the Pestilence Mission in Kingdom Come Deliverance, with instructions on how to heal all the afflicted at Merhojed and the trophy of Doctor of the Plague. After helping Father Godwin in the Main Search, you can talk to him to learn about a new Side Search, Playing with the Devil. This makes the mixture turn a fun grass texture. If you can read, you have to describe the symptoms, which are: fever, stomach pain, and diarrhea. When the villagers of Merhojed burst in to try to attack the prisoner, talk to them by saying "Don't want to be a murderer."
