Midas is known for two things : Being the ears of a donkey and transforming everything that touched in gold. The latter of these was his reward of Dionysus, even if he soon discovered that his gift was a Bana rather than a blessing, and that he does not I could not do simple things like taking a drink without the water that turns into gold. Curiously, like many other classical myths, this could be sorted as a history of origin to explain the rich golden deposits in the pollar river. Shoe it in Shallow depth Toria of Midas and his touch Å, å «Touch" summarizing history in a more detailed way, before offering an analysis of the meaning, origins and the themes of myth. Midas and the Golden Touch: Midas synthesis was a legendary king of Frigia, a kingdom in the center-western part of Anatolia (today in modern Turkey). How it came to acquire its fabulous touch å "e or Å, Å, Å,Å= Touchen Touchå, Å »Varies from the license to go, but this is probably the most common version, that the Roman poet Ovidi says in his long poetry the metamorphosis. Silen, a man who travels in the withdrawal of God God Removed from his party and he fell asleep among the mountains of Frigia (MidasÅ ¢ united). When the peasants found this foreigner asleep on earth, they tied him with chains and led him before their king, Mida. Midas recognized silent as a follower of Dionysus, treated his guest well, and then traveled with him when Silent re-united Dionysus. Dionysus, in grateful thanks to Midas for returning Silene to him, offered to grant Mida King any desire. Midas, like many kings, wanted to be rich Å ¢ or, better, rather rich. He richest in the way of every imagination. So he asked Dioniso to grant this desire: that everything he touched Midas would turn into gold. Dionysus kept the promise of him and granted Midas the desire for him, but the king would soon discover the flaw in him. Whenever he touched food to eat, he immediately turned into gold, becoming inedible. Even the wine, like Midas took to the lips, turned into gold. Realizing that a heÅ ¢ d factor made, Midas prayed Dioniso to cancel him's desire, but the gods easily remembers their gifts, so this was easier to say than to do. However, Dioniso Midas said to go to wash in spring to the source of the Pactolus river. (This is a real river near the Aegean coast of Turkey, now called Sart å Aya Å Å ¢ ±.) However, Midas did as suggested Dionysus and, through washing in the waters of the Pactolus, it was, fairly safe, healed by the waters Situation of him. Midas and the Golden Touch: Analysis A series of Greek myths seem to act as the ancient versions of kiplingÅ ¢ s Å ¢ only SOA stories, in the sense that they are fictitious-myths for the phenomena of real life. So it sprouts narcissates flower from Narcissus blood, the hyacinth flower from the blood of the beautiful youth named Giacinto, and so on. And the myth of Mida could have been a similar-mythous origin, designed to explain the wealth of the waters of the Pactolus river. The legend has that the river waters have been filled with gold grains after the Midas is soaked in it. In fact, the ancient historic Greek Herodotus said that the fragments of gold found in the sediments in the river were the source of the wealth of King Creso, another ancient king famous for obscene wealth. It is like someone to invent a Midas story around the Yukon, or in California at half of the nineteenth century. We humans always want to explain things, to come up with captivating reasons why things came to be as they are. Of course, the story of a TouchÅ ¢ Midas can also be analyzed as a warning on the dangers of avidity. If we are obsessed to become a rich and see all in terms of money, the other one of the things that give us pleasure, but also the same things on which we rely on to keep our meaning to life. The food, wine, the touch of a loved one: everything has become impossible Midas once the desire for him greedy was granted. He soon realized he was mistaken by him, and prayed to purify and purify himself (literally, in the river) of his avidity. But the curious thing Midas is that this story is not the only one who is associated with the name of him. In fact, there are also alternative versions of a gold TouchÅ ¢ history: Plutarch, for example, that it is designated as a historian and a reporter, but it was in many ways as a mild creator of a powerful as Ovidio, he told Of how Midas was lost in the desert, and even if there was no water to find, a source gushed out of the earth. However, the spring flowed with liquid gold rather than water, so Midas called Dioniso to help him. Dionysus duly obliged, granting MidasÅ ¢ desire that gold be shot for water, in a sort of reversal of Ovid history (or the first part of it, at least). This version of Mida history, It loses the moral force of Ovida s say, where the warning is the central human emotion. ThereAAA ¢ s another curious story that involves Midas that is noteworthy, and has nothing to do with gold, and everything to do with a couple of y ears. Midas was present when Marsia, La La Of the double flute (in some versions, Pan, with its pan tubes, it is present instead of Marsyas) competing against Apollo, with its lira, to see who could produce the most beautiful music. When Apollo was declared the winner, Midas questioned this judgment, and Apollo made a couple of ass ears grow from the head of midasÅ ¢ å, ~ å "¢. But this version has less to teach us to the dangers of the warning compared to the story of "the touch of MidasÅ ¢ å, ~ å" ¢, so it is perhaps unsurpassed that it is less famous.
