Press the button several times until the desired letter isWhen you release the key, the highlighting character is inserted into the text. Security and use... It is recommended to read this chapter carefully before using your phone. The manufacturer shall not be liable for damages, which may result in improper use or use contrary to the instructions contained in this document. • Page 54 It is recommended to turn off the phone from time to time to optimize its performance. Turn off the phone before you get on a plane. Turn off the phone when you are in health facilities, except in designated areas. As with many other types of equipment worn in regular use, cell phones can interfere with other electrical or electronic devices, or. Page 55 Always manage your phone carefully and keep it in a clean and dust-free place. Do not allow the phone to be exposed to adverse or environmental weather conditions (humidity, humidity, rain, liquid infiltration, dust, sea air, etc.) The recommended operating temperature of the manufacturer is 0°C (32°F) at +40°C (104°F.) Page 56 blackout when exposed to flashing lights, or when playing video games. These attacks or blackouts may occur even if a person has never had a previous attack or a blackout. If you have experienced convulsions or blackouts, or if you have a family history of such events, consult your doctor before playing video games on your phone or activate a flash function on your phone. 57 When you playon the phone, you can experience occasional discomfort in the hands, arms, shoulders, neck, or other parts of your body. follow the instructions to avoid problems such as tendonitis, carpal tunnel syndrome, or other musculoskeletal disorders. protect your attention to avoid possible hearing damage, do not listen up. page 58 or improper mobile phone. • As a result of air regulation, the battery of the product is not charged. Please upload it first. before removing the battery from the phone. make sure the phone is off. observe the following precautions for the co of the battery: - do not attempt to open the battery (due to the risk of toxic fumes and burns.) page 59 has been disposed of in the environment, so that their components can be reused. in the countries of the European Union: These collection points are accessible for free. all phones with this sign must be brought to these collection points. in the jurisdictions of the European Union: equipment items with this symbol should not be thrown into ordinary containers if your jurisdiction or region has. 60 manufacture page: huizhou puan electronics co., ltd. model PA-5V550mA-015, PA-5V550mA-006, PA-5V550mA-012, PA-5V550mA-017 manufacture: Jiangsu chenyang electron co., ltd., model CY050055UK-L, CY050055EU-L. • radio wavesArticle 61 The radio wave exposure guidelines use a measuring unit known as the specific absorption rate. or SAR. The SAR limit for mobile devices is 2 W/kg. SAR tests are conducted using standard operating positions with device that transmits to its highest level of certified power in all test frequency bands. The SAR body load test was carried out at separation distance of 5 mm. To meet RF exposure guidelines during body-worn operation, the device must be placed at least this distance from the body. If you do not use an approved accessory make sure that any product is used is free of any metal and that places the phone the distance indicated away from the body. Article 63 Because mobile devices offer a range of functions, they can be used in positions other than ear ones. Under such circumstances the device will comply with the guidelines when used with the usb headset or data cable. If you use another accessory make sure that any product is used is free of any metal and that it places your phone at least 5 mm away from the body. Page 64 Communication Ltd. is stored in accordance with applicable data protection legislation.
