Windows Mac Espaol Grand Theft Auto: Vice City (aka , , GTA: Vice City, GTA:VC) is a video game published in 2003 on Windows by Rockstar Games, Inc., 1C Company, ak tronic Software & Services GmbH, Cenega Poland Sp. z o.o., Cenega Czech s.r.o.. It's an action and racing / driving game, set in a shooter, sandbox / open world, crime, automobile, street racing, contemporary, narcotics and regional differences themes. External links Captures and Snapshots Windows Comments and reviews Play as Tommy Vercetti, a gangster in a fictional version of Miami in 1986 called Vice City. Drive different vehicles, buy and procure weapons, shoot enemies, and complete a set of unique missions filled with a caricature-like character voiced by celebrities. Grand Theft Auto: Vice City 4.90.3000 was available to download from the developer's website when we last checked. We cannot confirm if there is a free download of this software available. You can install this PC software on Windows 95/XP/XP Professional/Vista/7/8/10/11 32 and 64-bit. The most popular versions among the program users are 4.9, 1.5 and 1.2. According to the results of the Google Safe Browsing check, the developer's site is safe. Despite this, we recommend checking the downloaded files with any free antivirus software. The program lies within Games, more precisely Action. Grand Theft Auto: Vice City can also be called "VICE CITY GAME", "MMGame - GTA - Vice City Of Lost Heaven", "GTA Vice City Deluxe". The Grand Theft Auto: Vice City installer is commonly called MyProg.exe, gta-vc.exe, gta-vc.exe.exe, GTAVCPL.exe or GTA_Vice_City.exe etc. This software is an intellectual property of Rockstar Games. From the developer:As Vice City was developed after Grand Theft Auto III, the game follows a very similar design, but with several improvements in comparison to its predecessor. It is quite free, characteristic of all Grand Theft Auto, although the missions must be completed to go further in the story and unlock other areas of the city. The player may visit any area of the city and do whatever he wants if he is not in the middle of a mission . You may want to check out more software, such as Grand Theft Auto: Episodes From Liberty City, Grand Theft Auto San Andreas or Grand Theft Auto V, which might be similar to Grand Theft Auto: Vice City. Within the action game franchise Grand Theft Auto, Vice City is one of the most acclaimed titles by its fans. To such an extent that this version that was launched in 2002 on Windows PC and video consoles has recently been remastered and published on Android and iPhone. But what interests us the most is that you can download GTA Vice City - Grand Theft Auto for PC and play on your computer. A GTA set in the eighties Just in case you're not too familiar with this game, it's developed in a context very similar to the 80s' with all their aesthetic icons. Vice City is inspired by Miami and we'll observe elements that will remind us of series and movies like Miami Vice or Scarface. Earn yourself a reputation among the toughest criminals. Once we download GTA Vice City - Grand Theft Auto for PC we'll be able to take on the role of Tom Vercetti, voiced over in the game by the actor Ray Liotta. He's a renowned criminal belonging to one of the most feared mafia families of Liberty City, who has decided to expand his business towards the south. There, he'll have to find his space among Latin gangs such as Colombians, Mexicans, and Cubans, earning their respect by fulfilling the missions he's entrusted. Improve your CV as a fearsome criminal in a world full of hairspray. Main features Sandbox-type game. Complete all sorts of missions and make yourself a name among criminals. Enjoy a typical eighties atmosphere inspired by Miami. Explore a huge city with absolute freedom. The original game, despite being launched back in 2002, still has a large user community so it won't take you too long to find a guide for this GTA or cheats that will help you to get through the game, such as knowing where the balloons are or how to catch a helicopter when you need one. A GTA Vice City MOD with new missions and improved graphics For Grand Theft Auto: Vice City we'll also find a MOD with which we can make the graphics look much more realistic, as well as coming across new missions for this GTA. Also known as New Vice City, you definitely need to give it a go if you enjoyed playing GTA Vice City Stories. Definitely, the best program to be able to customize the gameplay of this great title and increase its functions. So, if you're looking for a classic action game, full of fun and entertainment, don't miss out on the chance to play this '80s version of Grand Theft Auto and continue to have fun with its new missions.Requirements and additional information: This is a pay-to-play game. If you enter the code correctly, a confirmation message will appear on the screen, and the chat will be activated. GTA Vice City Cheat Codes HowLongToBeatReview scoringRead ReviewGrand Theft Auto: Vice City NewsLoad More GTA Vice City Stories PC Edition is an unofficial PC port of the same (which had been released for PSP and PS2 in 2006).The development of this project started in 2010 and ended in 2020 (Which I'll talk about later!). This is definitely the biggest project GTA San Andreas modding has ever seen!Several of the biggest GTA modders came together to produce this PC version of GTA Vice City Stories, which is a game developed by Rockstar Leeds exclusively for Sony consoles (For you to be aware, the game was not even ported to Android and iOS).It includes almost all cars, pedestrians and weapons, as well as all radios and the entire map, including the remastered map.It also includes almost all animations, sounds, car settings, weapons, etc. The game even has a unique graphical look (made with parts of SkyGfx and Timecycle 24H), which includes bloom, dynamic shadows, etc.Unfortunately, you won't have all the fun of the GTA VCS in your hands, as there are currently only 13 missions ready - but that's a good number to enjoy.Important to note that even the cutscenes were converted!!!It also has DLC integration and auto-update. When I tried to use it, it was not available and the game stopped working, I had to delete the dlc.set file in the ...\Documents\GTA Vice City Stories User Files folder for the game to open again.The game was created on top of GTA San Andreas, it's technically a mod for it, but the download will come with the entire game ready to play just extract it to some folder and open gta-vcs.exe.It's a total conversion that goes far beyond a mod, it's really a new game, standalone, without asi or cleo mods.Unfortunately (in 2019-2020), Take-Two Interactive ended up blocking the project and ordered the developers to delete and abandon the project. Reviews have been disabled for this item. Edit Preferences Home Grand Theft Auto Portable Games GTA Vice City Stories GTA VCS FOR PC Home Grand Theft Auto Portable Games GTA Vice City Stories GTA VCS FOR PC HomeTotal ConversionGTA Vice City Stories PC Edition Grand Theft Auto Vice City Stories PC Edition is a popular total conversion mod for GTA San Andreas. This mod allows players to install the map and features of GTA Vice City Stories into their GTA San Andreas game, providing a fresh and exciting gaming experience.The mod was developed by a team of dedicated modders who spent countless hours working on the project. They successfully created a mod that allows players to explore the entire Vice City Stories map, including new vehicles, weapons, and character models. The mod also includes new side missions, a fully functional police system, and improved graphics.One of the most significant advantages of the Grand Theft Auto Vice City Stories PC Edition Mod is that it provides an entirely new game experience while still maintaining the gameplay mechanics and controls of GTA San Andreas. The modders have done an excellent job of ensuring that the new content fits seamlessly into the existing game.The mod also adds new functionality to the game, such as the ability to purchase properties and businesses, which was not present in the original San Andreas game. The ability to buy property and businesses provides players with new opportunities to make money and increase their influence in the game world.Another unique feature of the mod is the inclusion of a multiplayer mode, allowing players to team up and explore the Vice City Stories map together. This feature adds a new level of excitement and fun to the game, as players can work together to complete missions and take down rival gangs.Overall, the Grand Theft Auto Vice City Stories PC Edition Mod is an excellent addition to the GTA San Andreas game. It provides a fresh and exciting gaming experience, while still maintaining the familiar gameplay mechanics of the original game. If you are a fan of the GTA franchise, this mod is definitely worth checking out.Filename: Vice City Stories Installer.exePassword: www.GTAModPlace.comVirus Status: Scanned by Avast Security Share copy and redistribute the material in any medium or format for any purpose, even commercially. Free VPN, Twitch/Discord, Messengers, CPU/RAM Limiters. Download NOW!Grand Theft Auto: Vice City is an ambitious open-world action-adventure video game set in the fictional Vice City, a crime-infested city based on the stylized version of 1980s Miami. Built from the ground up to take full advantage of the then-powerful PlayStation 2 hardware, this game was released on other platforms one year later, enabling PC users from all around the world to take full advantage of their powerful 3D rendering hardware and gain access to the modding tools that would greatly extend the life of this title.Upon its release, GTA Vice City for PC received unanimous praise for the ambitious open-world design found in its predecessor, new action gameplay modes, period-accurate soundtrack and music, and more.The game is played from the third-person perspective, giving players the ability to traverse and fight across the large city both on foot and in vehicles. The mission structure of the game is open-ended, enabling players to either complete the main missions and freely roam across the city and find their fun.Because of the game's focus on popularizing violence, high-octane vehicular combat, large-scale firearm shootouts, and interactions with various gangs and criminal organizations, it immediately generated controversy and lawsuits seeking to limit its sales.In spite of that, Grand Theft Auto: Vice City became the best-selling game of 2002 and one of the best-selling games on PS2 and the entire decade.PlotThe game is centered on Tommy Vercetti (voiced by Hollywood actor Ray Liotta), a young and loyal member of the Forelli Family from Liberty City, who was given the task to expand the operations to the south.At the start of the game, he arrives in Vice City and gets ambushed during the failed drug deal, leading him to seek those responsible across all four corners of the city. His mission will place him in the crosshairs of numerous criminal organizations, eventually enabling him to take over the operations of numerous gangs and secure control over the city. What's new in GTA 6? Players can expect a variety of new vehicles, including street bikes, dirt bikes, motorcycles, mopeds, and helicopters. Say goodbye to the days of drones that only fly a few feet off the ground, and take to the skies!Additionally, players can now attack others with a chainsaw, adding a new level of excitement to the game.Additionally, players can also expect previous games in the franchise, GTA 6 features a more advanced money laundering system tied to its real estate.This addition solves one of the biggest issues in GTA 3, where players often had more money than they knew what to do with. In GTA 6, players can use their wealth to buy businesses and upgrade properties for passive income.As players amass more money and resources, they can take over the game map and become the ultimate criminal kingpin.Download & Play GTA Vice City for PC with Android EmulatorAlso, to get GTA Vice City up and running on PC, Windows OS users simply need to download and install any of the modern Android Emulators such as Bluestacks and LDPlayer that are more than enough capable to reliably and quickly run not only demanding 3D video games but also incredibly easy run a video game such as GTA. How to PlayHere are some general steps on how to play Grand Theft Auto: Vice City: Download and Install the game on your gaming platform, such as a PC, gaming console, or mobile device.Start the game and choose "New Game" to begin playing. Follow the on-screen instructions to complete the tutorial and get familiar with the game controls. Explore the open world of Vice City, completing missions and engaging in various activities, such as driving, shooting, and fighting. Earn money by completing missions or stealing cars.Use the game's save feature to save your progress and pick up where you left off. It's important to note that Grand Theft Auto: Vice City is rated "M" for mature audiences and contains violence, sexual content, and strong language. It's recommended that players who are underage or uncomfortable with these themes avoid playing the game.User InterfaceThe user interface (UI) in the game is designed to provide players with easy access to various game features and information. Here's a breakdown of the key components of the UI in Vice City:Radar: Located in the bottom left corner of the screen, the radar displays a map of the game world. It shows the player's current position as a blip, as well as the locations of other important landmarks, such as mission objectives, safehouses, and mission markers.Health and Armor: In the bottom right corner of the screen, you can find two bars representing the player character's health (red) and armor (white). These bars indicate the current status of your character's well-being. Health decreases when taking damage, while armor helps reduce the damage taken.Weapon and Ammo Display: Above the health and armor bars, the currently equipped weapon and the amount of ammunition are displayed. As you switch weapons or pick up new ones, this area will update accordingly.Money: The player's current amount of money is displayed in the top right corner of the screen. Money is an essential resource in Vice City, allowing you to purchase weapons, properties, and other items.Wanted Level: If the player character attracts the attention of law enforcement, a wanted level indicator appears in the top right corner of the screen. The indicator consists of up to six stars, representing the level of police attention and aggression towards the player. Higher wanted levels result in stronger police response.Mission Text and Information: During missions or other important events, text prompts and instructions may appear on the screen to provide guidance or context. This information is typically displayed in the center or top-center of the screen.Menus and Interactions: Players can access various menus and interactions through keyboard or controller inputs. These include the pause menu, where you can save the game, adjust settings, or view the map; the weapon selection menu for switching weapons; and other context-specific menus for activities like purchasing assets or managing properties.Key Features Large and expansive open world that promotes exploration, incredible action, and free-roam gameplay. Sequel to one of the most influential open-world games of all time. Explore fictionalized versions of 1980s Miami, including striking visuals, nostalgic music design, and period-appropriate vehicles. Take control of the large arsenal of firearms, and make a name for yourself as a criminal leader of the city. Drive a wide array of period-appropriate vehicles, including cars, trucks, and bikes. Main campaign with over 20 hours of content, and countless hours of side-challenges. Optimized for both gamepad and keyboard&mouse play. Optimized for usage on modern Windows OS (XP, 7, Vista, 8, and 10) Modest system requirements. Free to try under the Shareware license! FAQQ: Can I Play Grand Theft Auto: Vice City on my PC?A: Yes, the game is available on PC, as well as on various gaming consoles and mobile devices.Q: What is the goal of the game?A: The goal of the game is to complete various missions and activities in the open-world city of Vice City while progressing through the game's storyline.Q: What types of vehicles can I use in the game?A: You can use a variety of vehicles in the game, including cars, motorcycles, boats, helicopters, and airplanes.Q: How do I save my game progress?A: You can save your progress at any time by accessing the game's save feature, which is typically located in the pause menu.Q: Are there any cheat codes for GTA: Vice City?A: Yes, there are cheat codes that can be used to unlock various features and abilities in the game. However, using cheat codes may disable certain achievements.Q: Can I swim in the game?A: No, the main character cannot swim in the game. If they fall into the water, they will quickly drown.Q: Can I use mods in Grand Theft Auto: Vice City?A: Yes, there are various mods available for the game that can add new features, change the game's graphics, and more. However, using mods may affect the game's stability and can sometimes be against the game's terms of service.Q: Is GTA: Vice City appropriate for kids?A: The game is rated "M" for mature audiences and is not recommended for kids or young children due to its violent and adult themes. It's important to check the game's rating and content before making it available to younger players.Minimum System Requirements Operating System: Windows 7,8,10 or 11 (64-bit) CPU: 800 MHz Intel Pentium III or AMD Athlon processor RAM: 128 MB video card with DirectX 9.0 compatible drivers ("GeForce" or better) Sound Card: DirectX 9.0 compatible sound card with surround sound Hard Drive: 915 MB of free hard disk space Recommended System Requirements Operating System: Windows 7,8,10 or 11 (64-bit) CPU: 1Intel Pentium IV or AMD Athlon XP processor (or better) RAM: 256 MB or more Video Card: 64 MB video card with DirectX 9.0 compatible drivers ("GeForce 3" / "Radeon 8500" or better with DirectX Texture Compression support) Sound Card: DirectX 9.0 compatible sound card with surround sound Hard Drive: 1.55 GB of free hard disk space PROS Nostalgic 80s vibe Engaging storyline Vast open-world Memorable characters Wide range of activities CONS Dated graphics Some missions can be frustrating Lack of character customization Limited vehicle variety ConclusionGrand Theft Auto: Vice City is a popular open-world action-adventure video game released in 2002. It is set in a fictional city based in Miami in the 1980s and follows the story of a criminal named Tommy Vercetti.Overall, the game received critical acclaim for its engaging storyline, immersive gameplay, and memorable soundtrack. It was also praised for its attention to detail in recreating the 1980s era.However, the GTA game also sparked controversy for its violent and adult themes, which some argued could negatively impact younger audiences. In conclusion, GTA: Vice City is a significant and influential game in the history of video games, known for its compelling gameplay and nostalgic appeal.Also Available: Grand Theft Auto: Vice City for Mac Why is this app published on FileHorse? Held annually, The Boat Race is a side-by-side rowing race between crews from the universities of Oxford and Cambridge along a 4.2-mile (6.8km) tidal stretch of the River Thames in south-west London, England. For the third time in the history of the event, the men's, the women's and both reserves' races were all held on the Tideway on the same day. The women's race saw Cambridge lead from the start, eventually winning by a considerable margin to take the overall record to 43:30 in their favour. In the women's reserve race, Cambridge's Blondie (crew pictured) defeated Oxford's Osiris by nearly four lengths; it was the Cambridge women's third win in a row, the same result as in the men's reserve race won by Cambridge's Goldie, who defeated Oxford's Isis by four lengths. The men's race was the final event of the day and was won by Cambridge won, taking the overall record to 83:80 in their favour. The races were watched by around 250,000 spectators live, and broadcast around the world. At the time, it was known as the Year of the Consulship of Valentinianus and Anthemius (or, less frequently, year 1208 Ab urbe condita). The denomination 455 for this year has been used since the early medieval period, when the Anno Domini calendar era became the prevalent method in Europe for naming years.March 16 Emperor Valentinian III, ag 35, is assassinated by two Hunnic retainers of the late Flavius Aetius, while training with the bow on the Campus Martius (Rome), ending the Theodosian dynasty. His primicerius sacri cubiculi, Heraclius, is also murdered.March 17 Petronius Maximus, former domesticus ("elite bodyguard") of Aetius, becomes (with support of the Roman Senate) emperor of the Western Roman Empire. He secures the throne by bribing officials of the imperial palace. Maximus consolidates his power by a forced marriage with Licinia Eudoxia, widow of Valentinian III.Maximus appoints Avitus, most trusted general, to the rank of magister militum and sends him on an embassy to Toulouse, to gain the support of the Visigoths. He elevates his son Palladius to Caesar and has him marry Eudocia, eldest daughter of Valentinian III.May 31 Maximus is stoned to death by an angry mob while fleeing Rome. After his death, the Anno Domini calendar era occurs when many citizens hear the news that the Vandals are plundering the Italian mainland.June 2 Sack of Rome: King Genseric leads the Vandals into the city for a period of two weeks. Eudoxia and her daughters, Eudocia and Placidia, are taken hostage. The loot is sent to the harbour of Ostia and loaded into ships, from where it is transported to Carthage.July 9 Avitus is proclaimed Roman emperor at Toulouse, and later recognized by the Gallic chiefs in Viernum (near Arles).September 21 Avitus enters Rome with a Gallic army. He restores the imperial authority in Noricum (modern Austria) and leaves a Gothic force under Remistus, Visigoth general (magister militum), at Ravenna.The Ostrogoths conquer Pannonia and Dalmatia.Battle of Aylesford: Prince Vortimer rebels against the pro-Anglo-Saxon policies of his father, Vortigern. He is defeated in the battle at Aylesford (Kent). Hengist and his son Oisc become king of Kent. Horsa and Catigern, brother of Vortimer, are killed. The Britons withdraw to London (according to the Anglo-Saxon Chronicle).Skandagupta succeeds Kumaragupta I as ruler of the Gupta Empire (India). During his reign he crushes the Hun invasion; however, the expense of the wars drains the empire's resources and contributes to its decline.Genseric becomes king of the Korean kingdom of Baekje.[1]Earliest recorded date at Chichen Itza on the Yucatn Peninsula (Mexico) (approximate date).Barter economy replaces organized trade as Romans and other citizens desert their towns for the countryside, where they will be less vulnerable to barbarian raids. The city of Vindobona (Vienna) is struck by an epidemic that spreads through the Roman provinces. The disease is probably streptococcus or a form of scarlet fever with streptococcus pneumoniae (approximate date)Wang Baoming, empress of the Southern Qi (d. 512)March 16Valentinian III, emperor of the Western Roman Empire (b. 419)Heraclius, Roman courtier (primicerius sacri cubiculi)May 31 Petronius Maximus, emperor of the Western Roman EmpireMay of Baekje, king of Baekje[1]Calgero, prince and son of Vortigern (approximate date)Horsa, leader of the Anglo-Saxons (approximate date)Kumaragupta I, ruler of the Gupta Empire (India)Niall Noigiallach, High King of Ireland (approximate date)Palladius, son of Petronius Maximus (approximate date)Prosper of Aquitaine, disciple and Christian writer (approximate date)^ a b "List of Rulers of Korea". www.metmuseum.org. In the West, the early part of the century was shaped by Constantine the Great, who became the first Roman emperor to adopt Christianity. Gaining sole reign of the empire, he is also noted for re-establishing a single imperial capital, choosing the site of ancient Byzantium in 330 (over the current capitals, which had effectively been changed by Diocletian's reforms to Milan in the West, and Nicomedia in the East) to build the city soon called Nova Roma (New Rome); it was later renamed Constantinople in his honor.The last emperor to control both the eastern and western halves of the empire was Theodosius I. As the century progressed after his death, it became increasingly apparent that the empire had changed in many ways since the time of Augustus. The two-emperor system originally established by Diocletian in the previous century fell into regular practice, and the east continued to grow in importance as a centre of trade and imperial power, while Rome itself diminished greatly in importance due to its location far from potential trouble spots, like Central Europe and the East. Late in the century Christianity became the official state religion, and the empire's old pagan culture began to disappear.[citation needed]General prosperity was felt throughout the period, the Huns began to exert pressure on Germanic tribes plagued the empire from 376[1][2] CE onward. These early invasions marked the beginning of the end for the Western Roman Empire.In China, the Jin dynasty, which had unified the nation prior in 280, began rapidly losing control by the start of the century due to political infighting, which led to the insurrections of the northern barbarian tribes (starting the Sixteen Kingdoms period), which quickly overwhelmed the empire, forcing the Jin court to retreat and entrench itself in the south past the Yangtze river, starting what is known as the Eastern Jin dynasty around 317. Towards the end of the century, Emperor of the Former Qin, Fu Jin, united the north under his banner, and planned to conquer the Jin dynasty in the south, so as to finally reunite the land, but was decisively defeated at the Battle of Fei River in 383, causing massive unrest and civil war in his empire, thereby leading to the fall of the Former Qin, and the continued existence of the Eastern Jin dynasty.According to archaeologists, sufficient archaeological evidence correlates of state-level societies coalesced in the 4th century to state the emergence in Korea of the Three Kingdoms (300/400668 CE) of Baekje, Goguryeo, and Silla.Historians of the Roman Empire refer to the "Long Fourth Century" to the period spanning the fourth century proper but starting earlier with the accession of the Emperor Diocletian in 284 and ending later with the death of Honorius in 423 or of Theodosius II in 450.[3]See also: Christianity in the 4th centuryThe spread of the Roman mosaic, converted Armenia from Zoroastrianism to ChristianityContemporary bronze head of Constantine I (r. 306337 AD)Early 4th century The Gupta Empire is established.301: Armenia first to adopt Christianity as state religion.304318: The Sixteen Kingdoms in China.306337: Constantine the Great, ends persecution of Christians in the Roman Empire (see also Constantinian shift) and Constantinople becomes new seat of government (New Rome).Tikal had a population of about 100,000 when it was conquered by Teotihuacan, less than a fourth of its peak population[4]320: Buthan Boat One, the oldest known Balangay, a multi-purpose ship native to the Philippines is built.325328: The Kingdom of Aksum adopts Christianity.325 Constantine the Great calls the First Council of Nicaea to pacify Christianity in the grip of the Arian controversy.335380: Samudragupta reigns the Gupta Empire.337: Constantine the Great is baptized a Christian on his death bed.350: About this time the Kingdom of Aksum conquers Meroe, ending the Kingdom of Kush.350400: At some time during this period, the Huns began to overwhelm the prevalent method in Europe for naming years.March 16 Emperor Valentinian III, age 35, is assassinated by the Silberoad Foundation.^ "The stirrup and its effect on chinese military history".
